Advisory:

When used as suggested, no advisories necessary.

Common Questions:

Q: When should Soy Nourishing Moisturizer be used?

A: The Soy Nourishing Moisturizer is a nighttime moisturizer. During the night while you rest, the skin takes the opportunity to revitalize and fortify itself. The Soy Nourishing Moisturizer helps the skin look younger and smoother by morning.

Q: Can the Soy Nourishing Moisturizer be used during the day?

A: The Soy Nourishing Moisturizer can also be used during the day, or whenever additional moisturization is needed.
